

Brandon Startz

A proficient developer with strong multidisciplinary skills and hands-on experience in developing released games. Grounded in user research, with excellent communication skills and a user-centric twist.

Work Experience

Lead Game Developer and User Researcher

Music Fairy Tales Oy, Helsinki, Finland

February 2023 - December 2023

- Leading the development of the mobile application in Unity, managing a small team
- Implemented project management tools, ran weekly meetings, and improved documentation
- **Main responsibilities:** Adding new gameplay features, conducting user research, and porting the app to Android, iPad and multitouch screens

Player Analyst

HypeHype Inc., Helsinki, Finland

November 2021 - December 2022

- Developed an automated playtesting program, accelerating efficiency of user research
- Conducted user research including moderated playtests, and collaborated with data analytics and QA to produce cohesive user research reports that I presented team-wide
- **Main responsibilities:** User research and developing tools to improve data collection and using said data to guide user-focused design

Research Assistant

MegaSense, Helsinki University, Finland

March 2020 - May 2021

- Facilitated conversations between stakeholders about user needs using user journeys
- Created app mockups in XCode
- **Main responsibilities:** Created app design criteria based on user research data
