

Brandon Startz

User Researcher

Work Experience

Lead Game Developer and User Researcher Music Fairy Tales Oy, Helsinki, Finland

February 2023 - December 2023

- I functioned as both User Researcher and Lead Developer
- I gained valuable experience on facilitating communication between teams
- The developers I supervised and I communicated important research findings to the company
- **Main responsibilities:** I wrote the game code in Unity. I also planned and documented in-person playtests with relevant stakeholders

Player Analyst HypeHype Inc., Helsinki, Finland

November 2021 - December 2022

- I organized and conducted playtesting, user interviews, and user recruitment
- A big part of my job was communicating my research analysis via weekly presentations: combining findings from data analytics, user interviews and moderated playtests
- **Main responsibilities:** Playtest reports, presentation skills, managing user research infrastructure

Research Assistant MegaSense, Helsinki University, Finland

March 2020 - May 2021

- I honed my skills in concluding business-relevant action points based on UR data
- **Main responsibilities:** Facilitating conversation between stakeholders about the needs of the target users. I achieved this using mockups of mobile apps, user journeys and competitor analyses to spark conversation
